

Biography – Pam Thompson, Lockheed Martin Aeronautics

Pam has over 28 years of experience working on aircraft hardware and software product deliverables and issues for the C-130 A-H/J, KC-130H, C-5 A/B, C-141 B, L-100, L-182, L-188, F-22, L-1011, P-3 and S-3. Many of these programs have ADA code products. Her experience includes successful assignments in manufacturing, engineering and business management. Prior to joining Lockheed Martin, Pam served 5 years active duty and 6 years US Air Force Reserves with a numbered Air Force. She has an undergraduate engineering degree from Southern Polytechnic State University and a Masters degree in Business Administration from Georgia State University. To remain current in the avionics and software fields, Pam has completed over 20 related technical short courses.

Since October 2000, Pam has served as the Director of Software Engineering at LM Aero Headquarters in Fort Worth, TX. She has responsibility for program support, staffing, software process definition, metrics, software engineering environments and tools, and technical problem resolution. She was responsible for establishing a common software process across all three LM Aero sites.
